What is gold filled jewellery?

Our gold filled jewellery uses a 14 carat gold overlay which is then bonded to a base metal, normally brass, inner core. This is a permanent bond and the gold won't flake, peel or fall out. By law, the total weight of a gold filled item must contain 5% of gold. For comparison, the total amount of gold a gold-plated item usually has is under 0.05% of the overall weight of the product.

Gold Filled Rectangle

N0077

What are the Benefits of Gold Filled Jewellery?

Gold-filled items are perfect if you're looking for material that is higher quality than gold-plated, but an affordable alternative to solid gold. Unlike gold-plated, gold-filled can last a lifetime if taken care of and isn't affected by water or hot weather. It is also tarnish-free under normal conditions

Gold filled jewellery has inherent value in 5% of its weight being 14ct gold. The amount of gold in gold plated jewellery is insignificant and has little value.

Handwriting & Doodle Jewellery

Handwriting & Doodles

We offer the option to engrave handwriting and doodles instead of standard fonts to add extra magic to your special keepsake.

From children's doodles to grandparents handwriting, there is something so heartwarming to capture their writing onto jewellery.

For memorial jewellery, we can engrave their name from a photo of their writing taken off an old greetings card or letter.

This is available on the back of any item plus to order on the front just choose any item from our photo section of the catalogue.

Examples - see the custom order section of the catalogue for our full range

Name & Initial Jewellery

Names & Initials

Looking for something more traditional? No problem, why not keep it simple with just the name or an initial of a loved one to create a treasured piece of jewellery.

We offer a large range of 9ct gold and sterling silver pendants plus a choice of chains so you can find the perfect gift or keepsake.

You will find examples of our fonts for engraving at the back of this catalogue and can engrave any text or initials on the front or back of the item.

For name and initial jewellery just choose any item from the photo section of the catalogue.

Examples - see the custom order section of the catalogue for our full range

Photo Engraving

Where memories become
minimalist masterpieces

This section provides inspiration,
but we can engrave anything you wish.

We capture your most cherished memories by digitally tracing your photos and meticulously engraving them onto precious metal. This unique process transforms your special moments into timeless keepsakes. Each engraved piece reflects the essence of your photo, preserving it with remarkable detail and elegance, so you can carry your memories with you forever.

There's no limit to the ideas you can bring to life, we can engrave any photo onto our jewellery and keepsakes. Just order from any item in our hand and footprint range. Whether it's hands & feet, a loved one's face, a special moment, or even your pet, simply upload your chosen photo instead of a hand or footprint, and we'll take care of the rest, making your piece truly personal and one-of-a-kind with just a photo..

Love your 3D casting?
Now you can wear it wherever you go.

What will you
engrave on yours?

Portraits

With so many photos stored away on our phones, a treasured keepsake is now only a few clicks away.

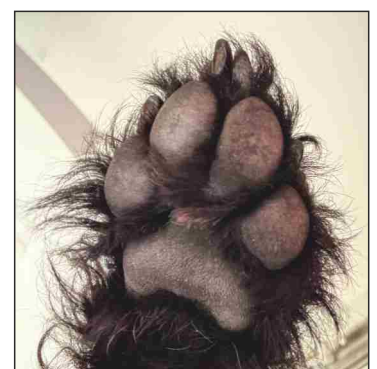

Nose Prints

Or, from the same photo, we can zoom in closer to capture every detail of Roob's nose – a beautiful sterling silver necklace to keep the memories close to the heart.

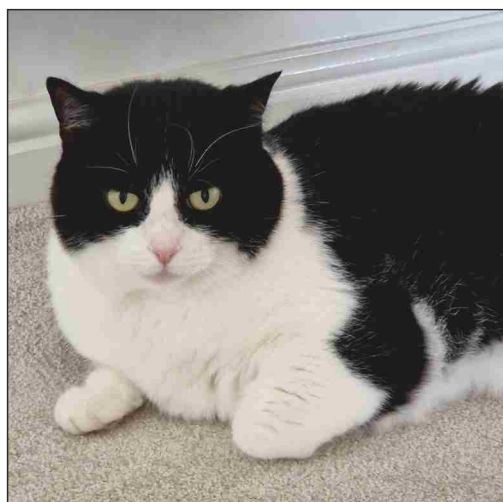

Paw prints from photos

Capturing a paw print can be extremely hard and messy at times so we have developed a system to capture every detail from a photo. Just upload an image with your order and we will do the rest.

Terry

It's not just cats and dogs – we can create a sentimental piece of jewellery from any photo, like these beautiful ones of Terry the Tortoise.

Poppy

Poppy is usually found snoozing somewhere, but we managed to catch her awake for this photo. Any photo, of an animal, person, or object, can be transformed into a truly unique piece of jewellery.

Paw Print Castings

Do you have a paw print casting of a beloved pet who is no longer with you?

We can recreate a lifelike paw print from their original casting.

While it's impossible to replicate it with complete accuracy, we work carefully to ensure the print is as close to the original cast as possible.

Ink Prints

Not every engraving needs to be highly detailed or based on a photo. Sometimes, simplicity creates the most meaningful pieces. The beautiful Mia kindly demonstrated that ink prints on paper can still make for a truly personal and heartfelt keepsake.

If you don't see what you're looking for in the catalogue, just ask. We can engrave almost anything and will always do our best to accommodate your requests.

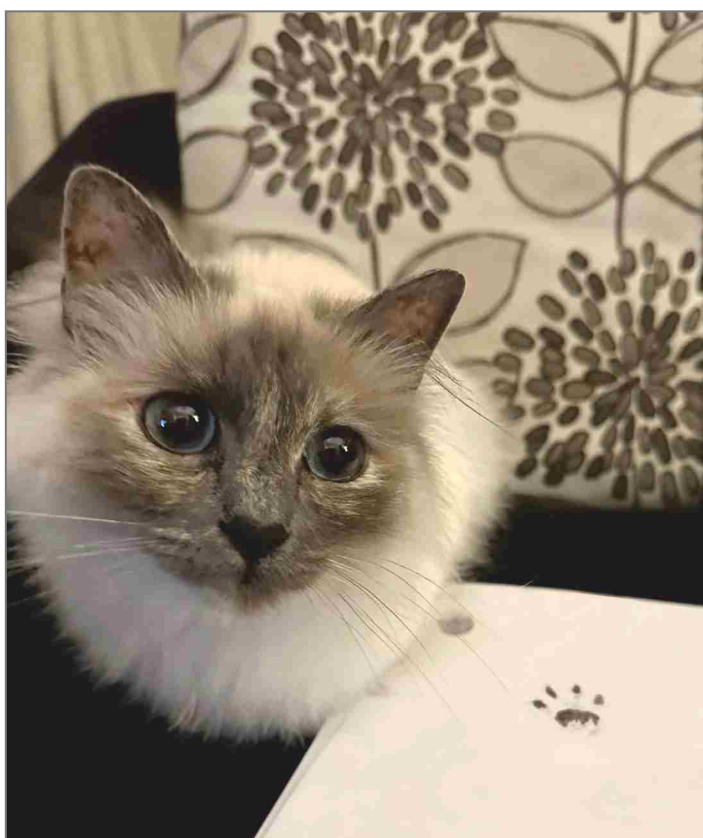

Photo Engraving & Custom Orders

P0002

What is gold filled jewellery?

Our gold filled jewellery uses a 14 carat gold overlay which is then bonded to a base metal, normally brass, inner core. This is a permanent bond and the gold won't flake, peel or fall out. By law, the total weight of a gold filled item must contain 5% of gold. For comparison, the total amount of gold a gold-plated item usually has is under 0.05% of the overall weight of the product.

Gold Filled Rectangle

- 14ct gold filled, 0.8mm thick

Any of our silver pendants can be turned into a keyring.

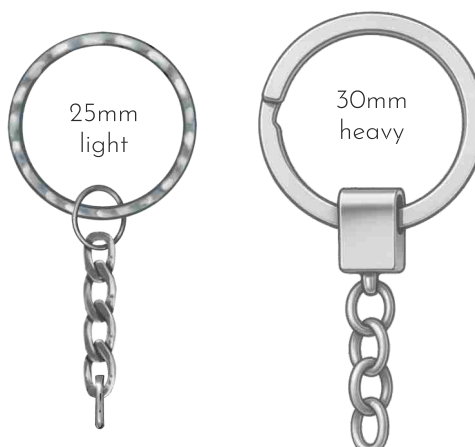

There is an option under necklace choice on each product to select a keyring.

£5.00 cheaper than necklace

Keychains

All keyrings have a choice of 25mm light or 30mm heavy keychain

Engraving on back of keyrings £10.00 extra

Chains

Chains

We offer three chains in different lengths as standard throughout our range.

The sterling silver chains come in a choice of trace or curb styles and in a choice of lengths.

The 9ct gold chain is a curb design but in a lighter style to the silver so sits beautifully between the two designs.

The 14ct gold filled chain offers all the style and practicality of a gold chain at a lower price point.
